Our Philosophy

Juvenescence believes that every child deserves a safe, warm and caring environment in which to grow and develop to their maximum potential. We are committed to fostering each child's self-esteem and feeling of self-worth and value through positive care giving, and stimulating activities that will promote their physical, social and intellectual growth and development. Every child is entitled to the opportunity to develop personal responsibility and social skills, to learn to problem solve and to learn about other races and cultures. Each child is recognized as a unique individual who brings his or her own gifts to the program and deserves to be given the encouragement and space to try new things, explore new ideas and develop their own unique creativity.
